Ali Muneer

Full Stack Developer (MERN)
Lahore, Pakistan | +92-312-0546646 | alimuneer001@gmail.com | GitHub | LinkedIn | Portfolio

Full Stack Developer with hands-on experience across the MERN stack, gained through an internship and full-time roles at Cinnova Technologies and Spadasoft. Skilled in building responsive interfaces with React.js and Next.js and backend services with Node.js and Express.js, with database experience in MongoDB and MySQL. Eager to keep growing and contribute to impactful, user-focused products.

SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS
- Backend: Node.js, Express.js, NestJS
- Databases: MongoDB, PostgreSQL, MySQL
- APIs: RESTful APIs, GraphQL, WebSockets
- Tools & Cloud: Git, GitHub, AWS
- AI Tools/IDEs: Antigravity, Codex, Claude, Cursor

EXPERIENCE

Full Stack Engineer Blink Hint (Part-time, Remote) *Oct 2026 – Present*

Develop and maintain full-stack features for BlinkHint using React.js, Next.js, Python, and PostgreSQL.
Build responsive, user-friendly interfaces and integrate them with backend services, RESTful APIs, WebSockets, and the OpenAI API.
Collaborate with cross-functional teams to deliver scalable, maintainable features.

Full Stack Developer Spadasoft *June 2026 – Sep 2026*

Built responsive, scalable web applications using React.js, Node.js, Express.js, and MongoDB.
Developed and integrated RESTful APIs and backend services.
Designed and optimized database structures and application workflows.
Translated UI/UX designs into responsive interfaces, collaborating with designers and developers on production-ready features.

Full Stack Developer Cinnova Technologies *Aug 2025 – May 2026*

Built responsive, SEO-friendly, accessible interfaces with React.js, JavaScript, HTML5, and Tailwind CSS.
Built and integrated RESTful APIs using Node.js, Next.js, and Express.js, ensuring reliable data flow.
Optimized frontend performance to speed up page load times and reduce bounce rates.
Used Git and GitHub for version control and code reviews; helped deploy and maintain apps on AWS.
Implemented automated testing workflows that improved code quality and reduced production defects.

Frontend Developer Intern Cinnova Technologies *May 2025 – Jul 2025*

Built responsive web interfaces using React.js, Next.js, and JavaScript on live client projects.
Developed reusable components and integrated APIs alongside designers and backend developers.

EDUCATION

BS Computer Science — The University of Lahore *(Jan 2019 – Dec 2023)*
FSc Pre-Engineering — Punjab Group of College, Okara *(Jan 2016 – Dec 2018)*

PROJECTS

BlinkHint — AI-powered Chrome extension that gives real-time conversation cues during remote interviews, using speech-to-text and LLM pipelines.

WAWCD — WhatsApp CRM and automation platform with a Chrome extension and web dashboard, featuring a smart inbox, broadcasting, workflow automation, an AI assistant, and CRM integrations.

Lux Chauffeur — Business website for an electric chauffeur service, with service and airport transfer pages, fleet details, fixed-price tables, areas served, and an online booking and enquiry flow.

Rankvi — Marketing website for an SEO agency, with service pages, industry and case study pages, a blog, and a free consultation booking flow.

ShopSphere — Gaming gear e-commerce platform with category browsing, product pages, cart, and login/checkout flow.

Meridan — Medical laboratory website with appointment scheduling and test result integration for labs and patients.

3D Advertisement Truck — Interactive 3D truck advertisement display for marketing campaigns, with dynamic visuals and animations.

Travel Addict — Travel agency site with package listings, booking, itinerary management, destination pages, authentication, and a contact system.
